🔗 My Portfolio

Summary

Recent Computer Science graduate skilled in data analysis, programming, and business intelligence. Proficient in Python, SQL, Excel, Power BI, Frontend and with hands-on experience in machine learning and data-driven projects. Passionate about transforming data into actionable insights to support decision-making.

Skills

Python
Numpy, Pandas, Matplotlib,Seaborn,OpenPyXL.

SQL
Data definition, manipulation, control, and querying

Power Bi
Data Modeling, Data Cleaning, Data Visualization, DAX.

Advanced Excel
Vlookup, Pivot table, Conditional formatting,Macros

Fullstack Web development
HTML5, CSS3, JavaScript, Node.js, Express.js

UI/UX
Figma, Canva

Education

Bachelor of Engineering
Gopalan College of Engineering and Management(Visvesvaraya Technological University)
12/2021 – 07/2025 | Bangalore, India
CGPA:8.45

Courses

Data Analyst
Besant Technologies
07/2025 – Present | Bangalore,India

Languages

- English
- Malayalam
- Hindi

Projects

Banking Analytics Dashboard - SQL, Python & Power BI
09/2025
Loaded and queried banking datasets using SQL for structured preprocessing and data extraction. Performed Python-based EDA to analyze trends, correlations, and customer financial behavior. Built an interactive Power BI dashboard with custom DAX KPIs for loans, deposits, fees, and engagement.

Quick-Commerce Sales Analysis Through Python
10/2025
Performed end-to-end data analysis using Python, applying Pandas, NumPy, Matplotlib, and Seaborn to explore sales performance, outlet segmentation, customer ratings, and product trends. Delivered clear visual insights to enhance sales strategy, customer experience, and operational efficiency

Ola Data Analysis Through Excel, SQL and Power BI
10/2025
Ola Data Analysis project using Excel for data cleaning, SQL for querying and analysis, and Power BI for dashboarding— uncovering key trends in bookings, cancellations, ratings, and revenue with strong analytics and visualization skills.

Excel Sales Analysis Project
11/2025
Designed and developed an interactive Excel dashboard to analyze sales performance across multiple dimensions using KPIs, slicers, and automated data cleaning.

Internship Experience

BDreamz Global Solution Private Limited
Intern- Besant Technologies
07/2025 – Present | Bangalore,India

- Analyzed large datasets of Besant Technologies to identify trends, patterns and actionable insights to support business decision.
- Creative interactive dashboards and visualizations using Power BII at Besant Technologies, enhancing data accessibility of stakeholders.

AI and Machine Learning
Intern- Rooman Technologies
09/2024 – 02/2025 | Bangalore, India

- Gained hands-on training in Artificial Intelligence and Machine Learning from Rooman Technologies, covering Python programming, SQL for data management, Linux operations, database concepts, and cloud computing fundamentals.
- Developed technical and soft skills through collaborative projects, enhancing problem-solving, communication, teamwork, and time management abilities.
